## Jieun Shin

### Creative Director

#### Role:

Overseeing all creative projects and ensuring brand consistency

#### Responsibilities:

- Leading the use of Adobe tools for design and content creation
- Negotiating with key partners to secure collaborations and resources
- Producing high-quality Card News to engage and inform the audience

## Chanmin Yoon

### Content Strategist

#### Role:

Developing and managing content strategies to enhance brand presence

#### Responsibilities:

- Producing detailed and informative Product Journals
- Utilizing Image Generation tools to create compelling visual content
- Creating engaging video content such as Reels to increase audience engagement

## Hyunwoo Kim

### Data Analyst & AI Developer

#### Role:

Analyzing data and developing AI models for strategies

#### Responsibilities:

- Developing advanced GPT models to improve customer interactions and content generation
- Analyzing key performance indicators to measure and improve business performance
- Producing insightful Product Journals that leverage data analytics

## Seunghan Park

### Multimedia Specialist

#### Role:

Creating and managing multimedia content to enhance brand storytelling

#### Responsibilities:

- Producing creative and viral Memes to increase brand visibility
- Creating engaging video content such as Reels to attract and retain audience interest
- Utilizing Audio Generation tools to produce high-quality audio content for various platforms

## Demographic Segmentation + Psychographic Segmentation

**Age Range** : 20s to 30s

**Occupation** : Students, young professionals

**Lifestyle** : Trendy and low-waste living

**Values** : Prioritize environmental friendliness and social responsibility

**Personality** : Strong desire for self-expression, seeks humor and fun

**Interests** : Active on social media, visiting cafes, watching videos (e.g., YouTube)

## Define specific customer segments

### 1. University Students

University students aged 20 to 27, representing Generation MZ, are creative and individualistic. They use social media frequently. They like to have their own unique items.

### 2. Young Professionals

Early career young professionals, aged 22-33, are frugal and interested in practical products. They are environmentally conscious and value social responsibility.

### 3. ECO-conscious people and Influencers

Eco-conscious people come in all ages, and they're all about ethical consumption. They are willing to buy eco-friendly products, even if the price is a bit higher. They want to share trendy and meaningful products with others.

Profile

Kim So-yeon(22)

Occupation

University student (Junier)

Hobbies

Being active on social media, DIY making, visiting cafes

Objectives

Express Unique Style: She wants to express her individuality and unique style through her choices.

Requirements

Affordable price, Eco-friendly materials, Convenient to use

Pain Points

Limited Variety: There is a limited selection of products to choose from, restricting her options.

Experience

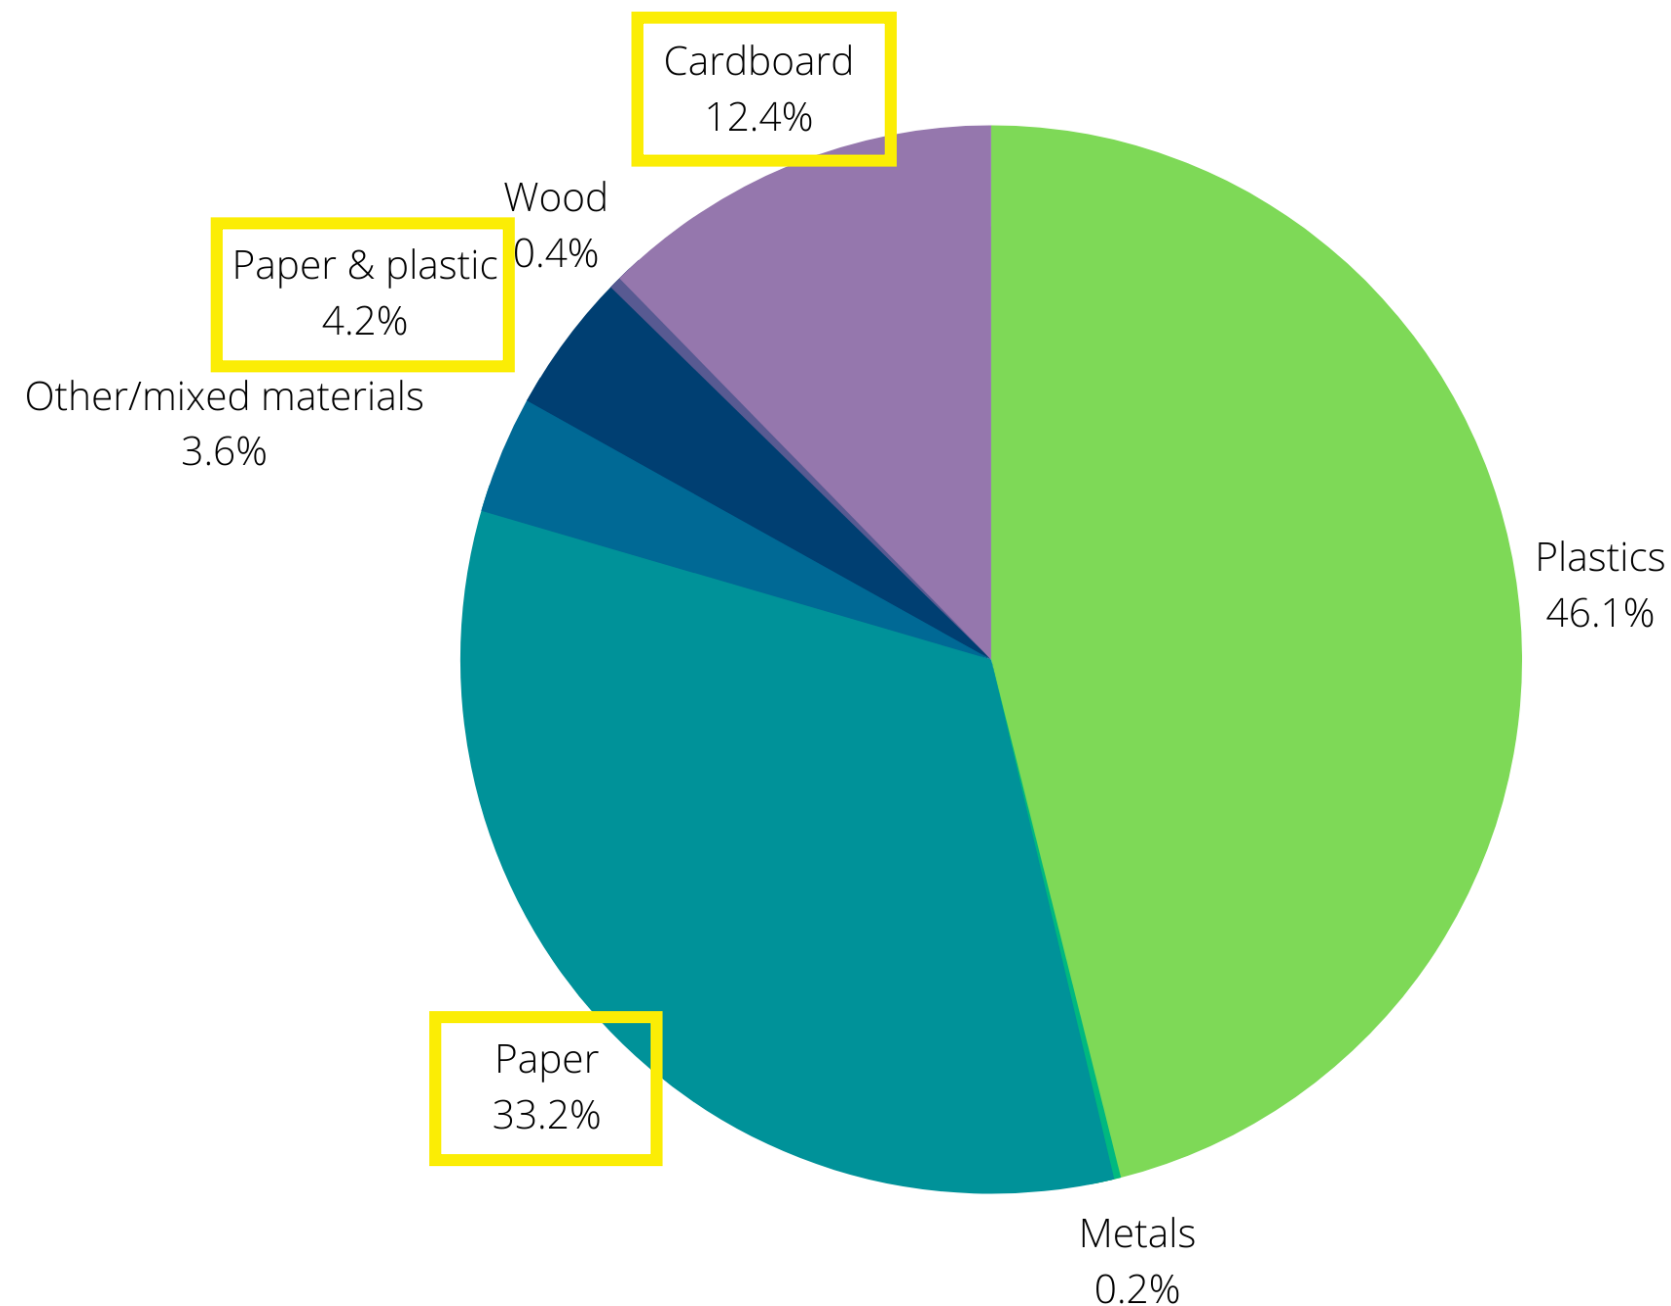

A Day in So-yeon's Life	Practicing Sustainable Living	Discovering Bloom	Product Review
<ul style="list-style-type: none"><li>Living in Seoul, 22-year-old university student So-yeon is a design major, busy with new ideas and creative projects every day.</li><li>She always wants to express her unique style and enjoys finding trendy products.</li></ul>	<ul style="list-style-type: none"><li>So-yeon is very interested in environmental protection and strives to lead a sustainable lifestyle.</li><li>she finds that existing eco-friendly products often lack appealing designs or are too expensive for her liking.</li></ul>	<ul style="list-style-type: none"><li>She discovered Bloom's reusable cup holders on Instagram.</li><li>So-yeon became fond of the Bloom brand through its fun and entertaining memes.</li></ul>	<ul style="list-style-type: none"><li>Upon receiving the product, So-yeon was satisfied with the excellent durability and convenience of the Bloom cup holder.</li><li>She actively recommends it to her friends.</li><li>She posts her review on her social media and works to spread the word about the Bloom brand.</li></ul>

emotions

Expectations

<ul style="list-style-type: none"><li>She always wants to express her unique style and enjoys finding trendy products.</li></ul>	<ul style="list-style-type: none"><li>So-yeon expects eco-friendly products to have appealing designs and be reasonably priced.</li></ul>	<ul style="list-style-type: none"><li>She was particularly attracted to the various custom designs and reasonable prices.</li><li>So she decided to purchase a Bloom cup holder, expecting it to meet her standards for style and affordability.</li></ul>	<ul style="list-style-type: none"><li>She expects the product to be durable and convenient to use.</li><li>She expects to have a positive experience to share on her social media and influence others.</li></ul>
--	---	--	---

## Composition of Single – use Items

**Paper, Paper & Plastic, and Cardboard,** the materials used in **disposable cup holders,** account for **nearly half** of all single-use waste

Source: [University of Cambridge](#)

## Limitations of traditional green brands

### Serious messages and boring

contentTraditional green brands often deliver serious and rigid messages that fail to engage Gen Z.

### Not enough choices

Eco-friendly products are limited in terms of design andrelatively high priceslimiting consumer choice.

## Do tumblers actually help the environment?

If you buy a Tumbler and then **throw it away without using it much**, you're doing the environment a **disservice**.

Tumblers made of polypropylene need to be used more than **50 times** to be effective in protecting the environment, and stainless steel tumblers, which are more common, need to be used **more than 220 times**.

- According to the Center for Life Cycle Energy Analysis (CIRAIG)

## Targeted differentiation strategies

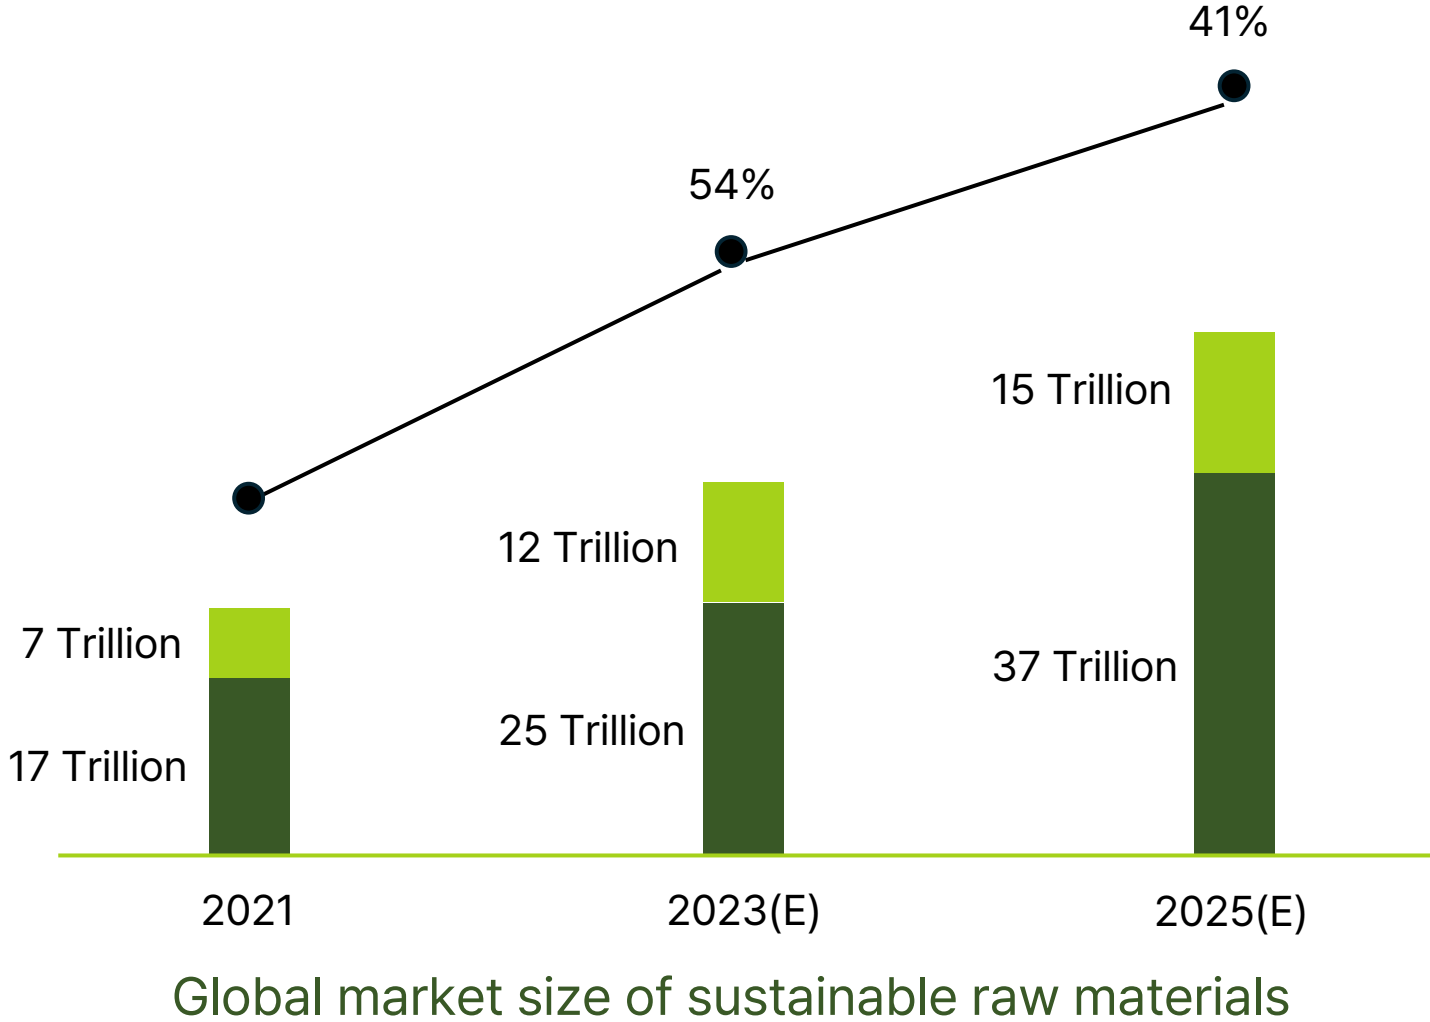

### Going green can be easy and fun

to create fun Bloom uses memes and quips that Gen Z loves and entertaining content to communicate the importance of environmental stewardship in a playful way.

### As an alternative to tumblers

we've developed a multi-use cupholder that offers all the benefits of a single-use cupholder while reducing paper waste.

# Market Analysis

# The growing market For green products

Market and Markets, Euromonitor statistics show that **the global green goods market is set to grow in size.**

# Brand Competitors

## Unroll Surface

The brand believes in creating a better future by replacing 'petroleum-based plastics' with 'sustainable materials' with 'sustainable materials' to offer eco-friendly lifestyle products.

## Kaffeeform

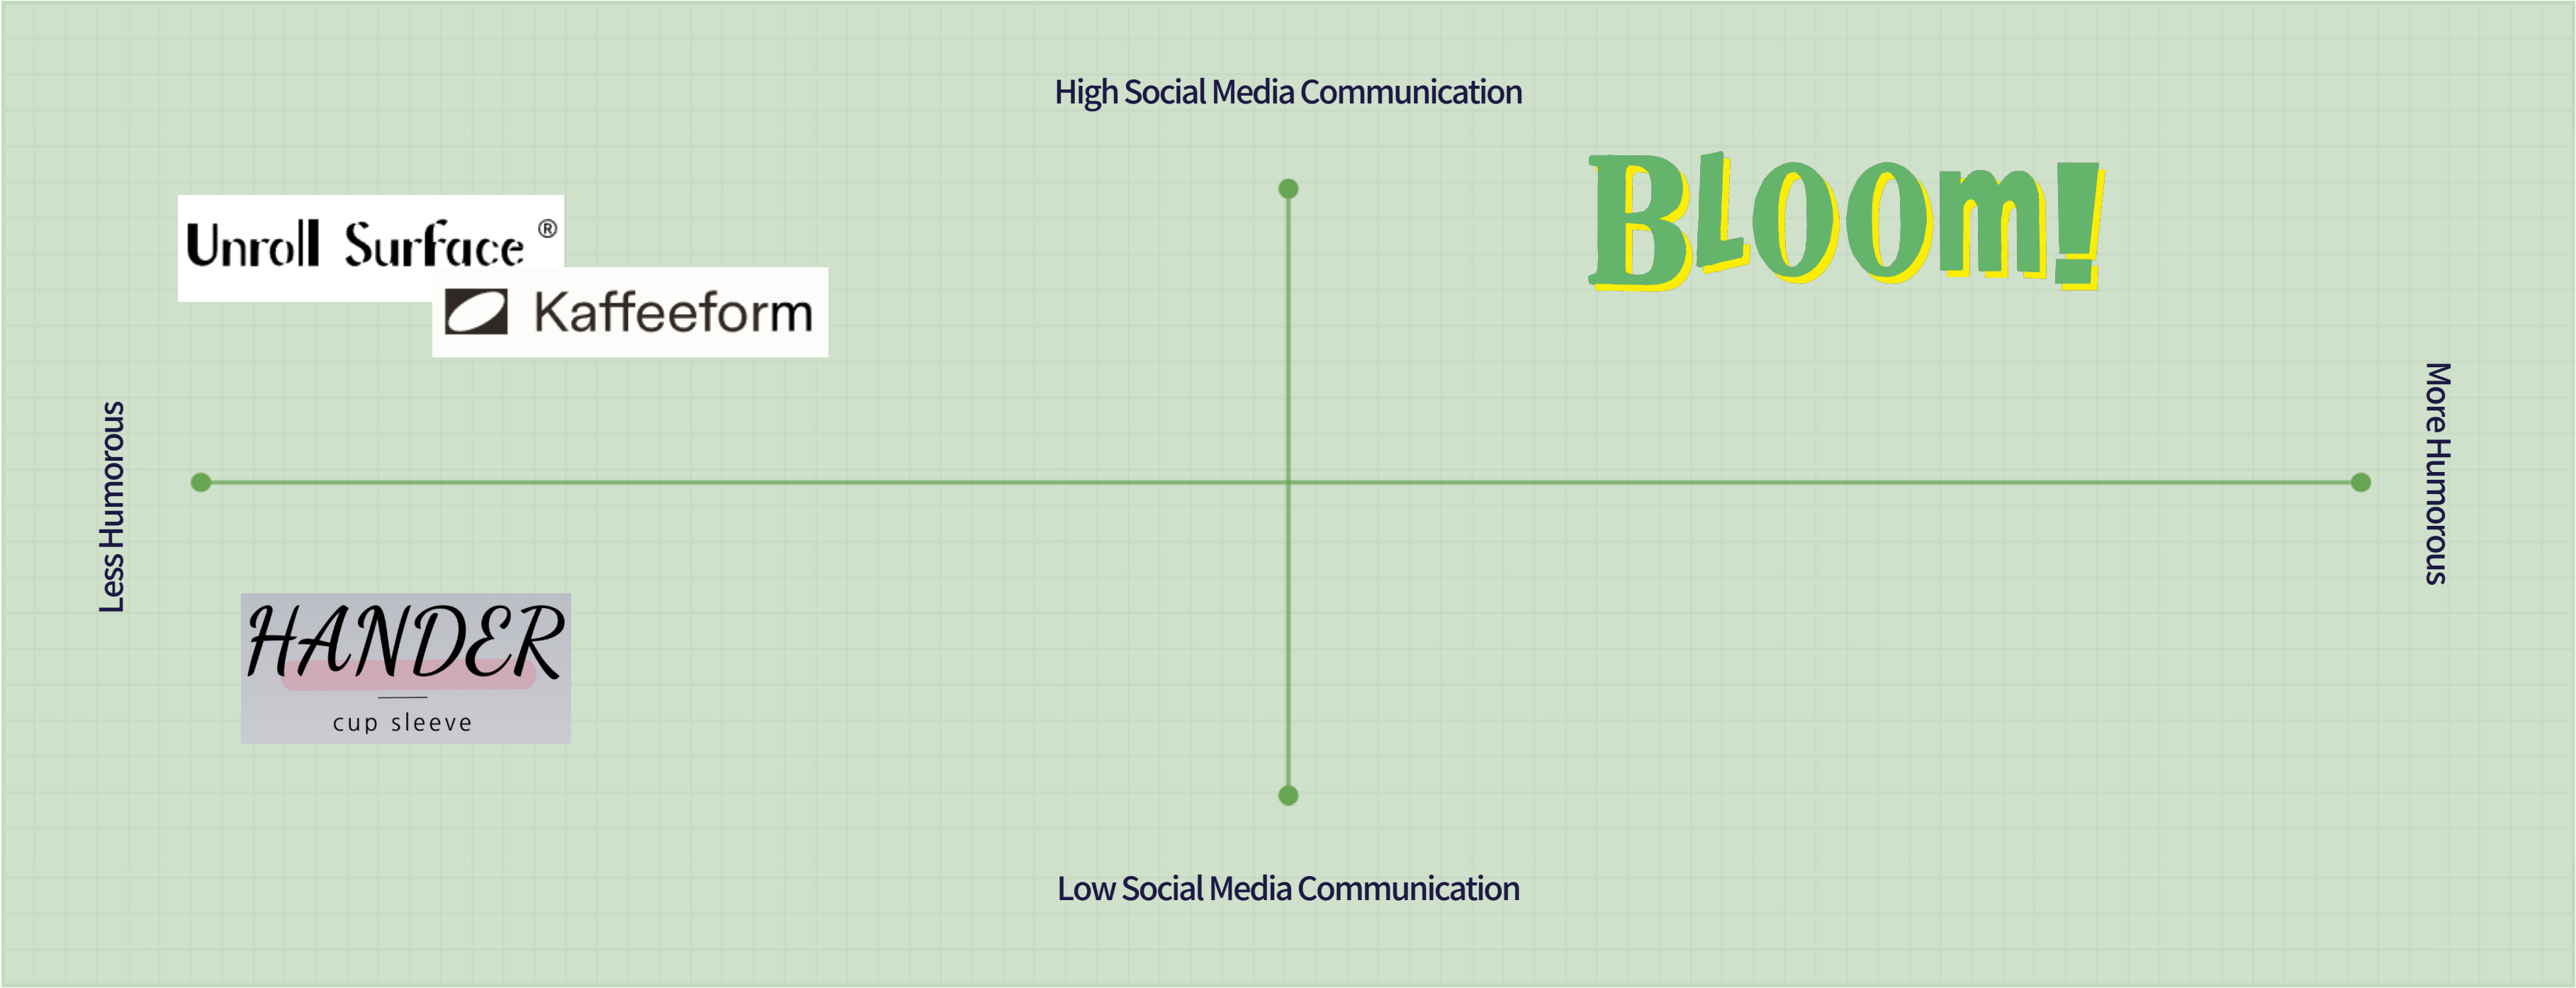

Kaffeeform revolutionizes the idea of reuse and adds new value to materials that would otherwise end up as waste. It transforms biological waste into sustainable and aesthetic everyday objects that enrich daily life and bring lasting joy.

## Hander

Launched through crowdfunding on Wadiz, features a cute design and shares similar characteristics with our product as a reusable cup holder.

# POSITIONING MAP

S

Strength

**Eco-friendly product:** Reusable cup holders contribute to environmental protection by reducing single-use products.

**Brand recognition:** If Bloom already has recognition in the eco-friendly product sector, it can leverage its existing customer base.

**High-quality product:** Offering durable and well-designed high-quality products.

O

Opportunities

**Increase in sustainable consumption:** There is a growing demand for eco-friendly products.

**Corporate and government support:** Various policies supporting eco-friendly products can be utilized.

**Online market:** Utilizing e-commerce platforms to promote and sell products.

W

Weaknesses

**Initial cost:** The production cost of reusable cup holders can be high.

**Lack of market awareness:** Consumers may not fully recognize the necessity of reusable cup holders.

**Maintenance and cleaning:** Reusable products require maintenance and cleaning.

T

Threats

**Intensifying competition:** Competition in the reusable product market may intensify.

**Consumer habits:** Changing the habits of consumers who are accustomed to single-use products can take time.

**Economic uncertainty:** Economic downturns may make consumers more price-sensitive.

SWOT

Insight

The SWOT analysis helps Bloom leverage the eco-friendly trend for a competitive edge while addressing initial cost and consumer awareness weaknesses.

## Eco-friendly Material

We have selected PLA material extracted from corn starch. This material is free from environmental hormones and harmful substances, making it safe to use. Additionally, it is 100% biodegradable by microorganisms.

## Custom Design

Based on Gen-AI, we offer unique custom designs that reflect the customer's style. Enjoy your own sustainable style.

## Durable Functionality

With the same excellent durability as regular plastic, our product is reusable. The attached handle allows you to enjoy your drink without being affected by temperature or moisture.

## Affordable Price

We offer our products at reasonable prices, considering the purchasing power of Generation Z customers.

## 3D Printing

Allows for complex designs and easy use of eco-friendly materials.

**Portable Mode**

**Transforming ...1**

**Transforming ...2**

**Active Mode**

## Reduced Weight

The new product is approximately 30% lighter than previous models, reducing plastic usage in production and lessening the weight burden during use and transport.

## Enhanced Portability

The newly developed portable cup holder is significantly more portable when not in use, as it remains rolled up in a round ball shape.

# Advantages of Utilizing Gen-AI

## Customization

We offer customized designs tailored to each individual customer.

## Reduced Design Time

The time required to design images, including prompting, is significantly reduced. On average, DALL-E takes 10 seconds. 'Midjourney' and 'Stable Diffusion' takes less than a minute.

### Image Generating AI #1

Compared to other image generation AIs, DALL-E demonstrated a clear strength in generating distinct images for simple image representations.

We developed GPTs specialized in generating stickers suitable for personalizing cup holders.

User

Chat Bot

### Image Generating AI #2

Midjourney

When requesting images in the style of specific artists or with a cinematic feel like Disney or Pixar, MidJourney provided the most similar and appealing results.

While Stable Diffusion also showed strengths in generating complex images, MidJourney produced more natural expressions in characters, leading us to choose MidJourney for our needs.

Communicate with customers and collect customer information with ChatGTP's GTPs-based chatbot  
Offer customised images to customers using Dall-E and Midjourney APIs

# Marketing Strategy

# Memes and AI Concept

## Memes

Memes make complex or serious topics more engaging by infusing humor and simplicity. They break down messages into easy and visually appealing formats.

## GenAI

AI images are used in marketing to create customized visual content. AI analyzes data to generate images that appeal to target customers, enhancing brand engagement and recognition.

Using Instagram as a primary marketing channel to connect with Gen Z,  
Build a brand image with eco-friendly values and a youthful sensibility

[Fun Contents]

Using memes to engage target and communicate environmental protection messages in a natural and fun way

[Card News]

Deliver educational and entertaining environmental information card news content with a playful tone

[Production Journal]

Sharing production process and stories to create a friendly, playful atmosphere and convey product credibility and brand authenticity

Meme/AI-based content

Using memes and AI to deliver eco-friendly messages in a fun way.

[Meme Contents]

"Humans. Be careful you don't become extinct, too."

[Meme Contents]

"Let's start by reducing our use of disposable cup holders!"

[Meme+AI content]

## Card News

Deliver educational and entertaining information with a playful tone

[What is PLA?]

Introducing the eco-friendly PLA material used in Bloom cup holder  
Using the Aespa's Supernova song and meme.

[World Coral Reef Awareness Day]

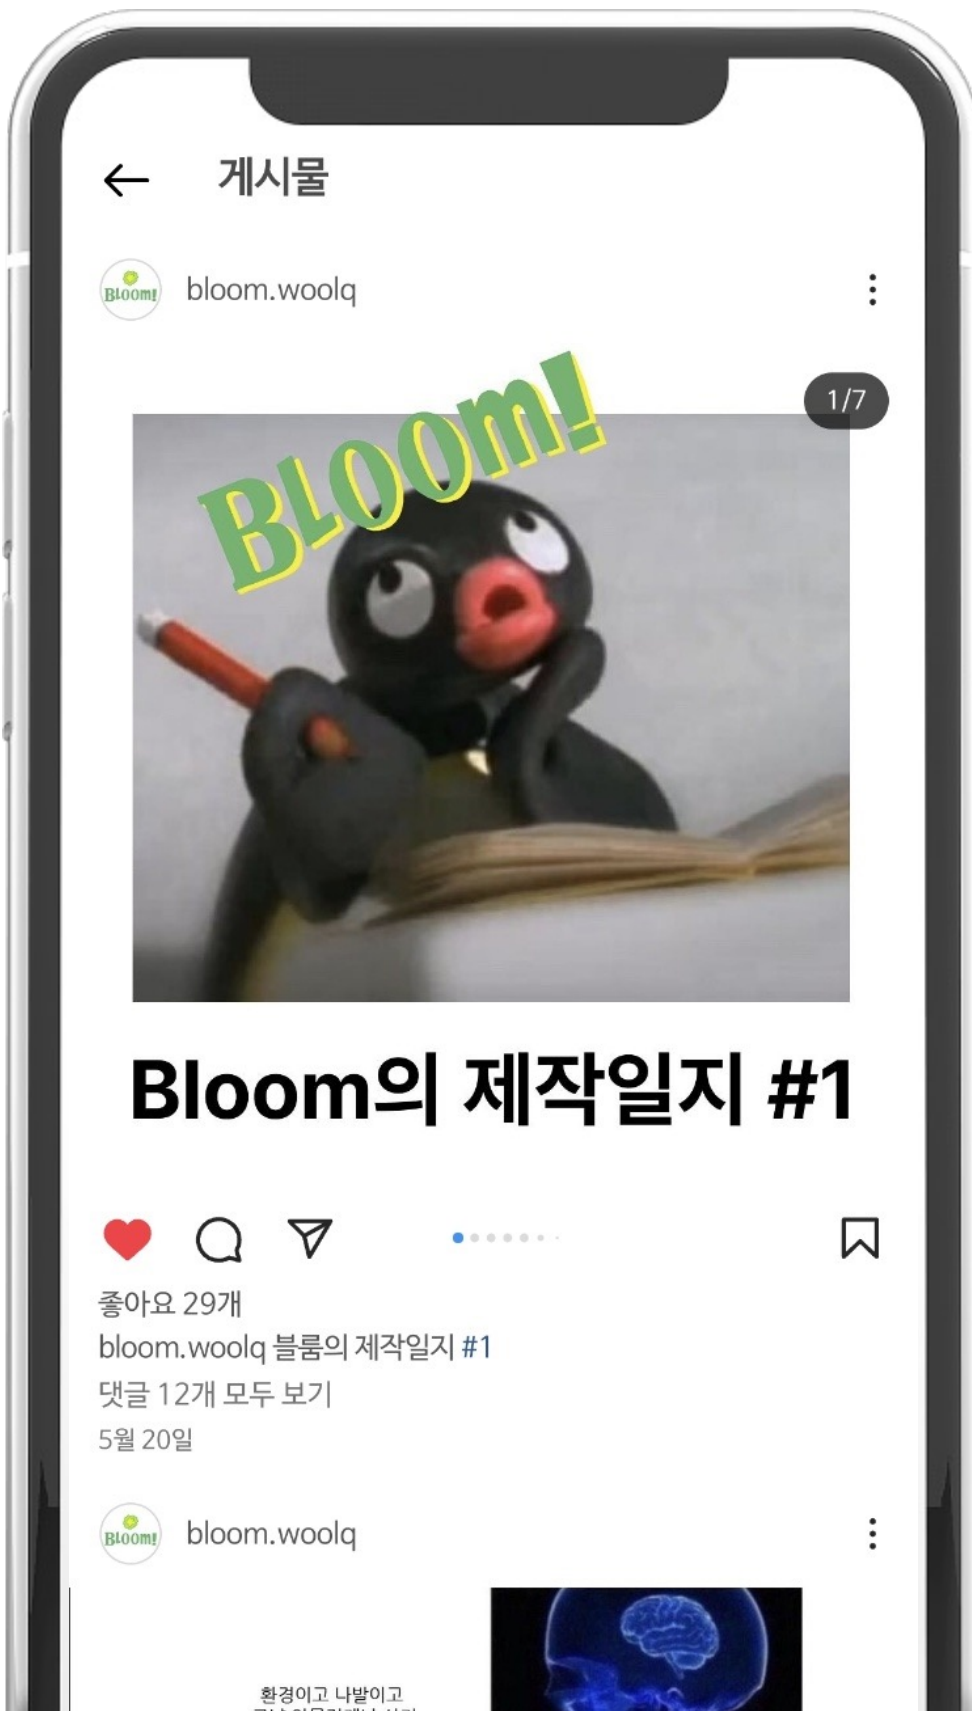

Explaining coral reef bleaching and spreading the word about global warming in honor of World Coral Reef Awareness Day

[Daily environmental sips]

Daily environmental sips, which delivers daily environmental news and knowledge in the form of card news.

## Production Journal

Sharing production process and stories

[제작일지 #1]

아 덥다 더워~~

## Short-term Goals

### 3 Months Plan

#### Increase Brand Awareness

##### social media marketing

- Regularly upload posts and launch campaigns

##### Influencer marketing

- Work with influencers to review and promote the products

#### Acquire New Customers

##### Purchase Discount Promotion

- Offer a 30% discount promotion for first-time customers

## Mid-term Goals

### 6 Months plan

### Secure Loyal Customers

#### Customer Engagement Events

- **Gen-AI Cup Holder Design Contest**

Plan a customer engagement event where customers can submit their designs, and the images are generated through Gen AI. The winning designs will be turned into actual products through a contest.

#### Pop-up Stores

- **Experience Zone**

Provide zones where customers can experience the product firsthand.

- **Coffee Events**

Offer coffee events at pop-up stores.

### Increase Sales

#### Partnerships with Coffee Shops

- Partner with local coffee shops to display and sell products.

#### Secure Stable Supply and Distribution Network

- Find and contract stable distribution partners to build a supply chain that matches the increased production volume.

## Long-term Goals

12 months plan

### Build a Sustainable Brand Image

#### Environmental Protection Campaigns

- Plan regular campaigns centered around environmental protection.

#### CSR Activities

- Conduct various corporate social responsibility activities focused on supporting local communities and protecting the environment.

### Expand into Global Markets

#### Build Local Partnerships

- **Online**  
Lunching on global ecommerce platform
- **Offline**  
Open global location offline store

## Collaboration & Event Planning

**Celebrity Collaboration** Partnership with a famous celebrity to release a limited edition reusable cup holder.

**Brand Collaboration** Launching products in collaboration with ESG-minded companies

**Social Media Event** Drive a variety of sns events, including custom design events

**Eco-Friendly Market** Organize a pop-up market in major urban areas to showcase and sell Bloom's eco-friendly products.

# Financial Plan

# Product Sale Channels

## Item: Reusable Cup Holder

### Website

A dedicated website allows complete control over branding and user experience while collecting valuable customer data

### Instagram

Instagram's visual platform enhances product showcase and engagement through interactive features and influencer collaborations

### 29cm

The 29cm is a specialized platform that targets fashion-forward consumers, offering a curated shopping experience for niche products

### Offline Store

Enhance customer experience by allowing consumers to interact with products physically, building stronger brand presence and loyalty

Overall Monthly Cost : ₱216,170

Expected Revenue

₩436,000

## Point 1

### Financial Projections

- We project strong ROI and long-term revenue growth.
- We will increase sales through stable distribution networks and partnerships with coffee shops.

## Point 2

### Market Growth Potential

- The eco-friendly products market is rapidly growing.
- There is an increasing interest in sustainable consumption among young generations.

## Point 3

### Innovative Product

- Our product features unique designs and integrates advanced technology.
- We offer customized designs using Gen-AI.

## Point 4

**BLOOM!**

### Sustainable Brand Image

- We build a positive brand image through environmental protection campaigns and CSR activities.
- We use eco-friendly materials and sustainable production methods.

# BLOOM!

*We will be a brand that leads the way in Green Culture*
